A SOMEWHAT HIGH and timely topic—Silk hats. The "dressiest" men wear silk hats all the fall and winter. Every man should own a silk hat, for there are occasions when they are the only "correct" hat. Surprise has been evinced by many when we begin by showing them a Five-dollar Silk hat as low as five dollars." Well, we do, and a good one at that. MR. LYMAN'S RETIREMENT. Mr. Tousley of Minneapolis Mentioned as

commissioner, to succeed Mr. Lyman, Mr. Tousley was formerly superintendent of education of Minneapolis and is a well-known civil Mr. Lyman has not yet resigned or been re-

noved, but it is well known that the President as decided upon his retirement and that he will go as soon as his successor can be selected. It is said that the President thinks that while the report of the civil service investigating committee censuring Mr. Lyman for laxity in committee censuring Mr. Lyman for laxity in connection with the giving out of examination questions by Mr. Campbell, his brother-in-law, makes his retirement from the commission necessary and desirable, it does not so reflect upon his character as an official as to disqualify him for continuance in the public service, and that he will be given some less responsible position.

Health of the Army. Surgeon General Sutherland has made his innual report to the Secretary of War upon the operations of his bureau during the year. He says that an aggregate reduction of \$100, 000 will be made in the estimates of appropriations for the next fiscal year for the entire expenses of the medical department.

Since the passage of the act of March 3, 1891, making the period of renewal of artificial limbs three years instead of five Congress has failed to make the necessary appropriation to meet the additional expenses, and the result will be nothing like it on the T. property. a deficiency of \$241,650 for the present fiscal EFFICIENCY OF THE HOSPITAL CORPS.

The report speaks of the efficiency of the nospital corps as shown during the Sioux campaign, urges the necessity of offering inducements to enlisted men to enter its ranks, and suggests that \$6 per month be added to the pay of the privates in the corps.
Good results are said to have followed the adoption of the new system of identification of deserters based on records of permanent marks

and scars.

As to the general health of the army the report shows that the number of men constantly sick, 42.71 per 1,000, compares favorably with 44.12 in the previous year. The cases of treatment of alcoholism num-bered 40.73 per thousand for the army as against 41.43 in 1889, and 56.68, the average durwithin the past year, so that complaints are in-frequent and the defects are due to local

HARBOR MASTER SUTTON'S REPORT Fire Boat.

The annual report of Harbor Master Sutton was submitted to the Commissioners today.
He urgently recommends that an appropriation of \$80,000 be estimated for to purchase a larger fire boat, which the increasing demands of each year require. Such a boat, he says, would be a valuable acquisiof untold service in fires along the river front.

The boat is to be provided with all modern appliances for the saving of property, and have among other things an electric search light. Abuitable place for anchoring the present police boat is urgently recommended, as at present they are dependent upon wharf owners for such privilege. An increase in salaries is also recommended.
